

SnapSolutions

Interactive experiences that engages users and generates leads.

SnapSolutions are quick-hitting, interactive experiences that engage users and collect valuable data around your target topic. Often used to capture opinions, test knowledge, or offer an assessment related to a key pain point, users receive real-time results as they move through the experience. Think industry-specific gamification done right!

USEFUL FOR

- Interactive & educational content marketing
- Generating leads
- Collecting user data beyond contact info
- Gathering valuable market feedback and insight
- Providing users with personalized responses
